IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): A method of conditioning hair comprising:

i) applying a hair treatment composition consisting essentially of 0.5 to 25 %
by weight of at least one oil agent, 50 to 99 % by weight of a solvent, and having a
water content of 0 to 15 % by weight to dry hair;

ii) allowing the hair to stand for 3 to 120 minutes; and

iii) washing the hair treatment composition away

wherein

said dry hair has a water content of not more than 30% by weight;

said oil agent is selected from the group consisting of ester oils, triglyceride oils,
cetanol, myristyl alcohol, stearyl alcohol, behenyl alcohol, 2-octyldodecanol, hydrocarbon
oils, polydimethylsiloxanes, vegetable oils, animal oils and a mixture thereof; and

said solvent comprises about 10% by weight of ethanol and a component is selected
from the group consisting of lower alcohols having 1 to 6 carbon atoms, wherein the
component is selected from the group consisting of benzyl alcohol, benzyloxyethanol,
polyhydric alcohols, alkylene carbonates, and N-methylpyrrolidone, and mixtures thereof.

Claim 2 (Previously Presented): The method of conditioning hair according to claim
1, wherein the hair to which said hair treatment composition has been applied is covered so
that a component of said hair treatment composition may not escape while being allowed to
stand.

Claim 3 (Currently Amended): A method of conditioning hair comprising:
